

BACKGROUND

The Organisation, established in 2009, is a Public Charitable Trust that works for the improvement of quality of life for underprivileged communities across India through Health, Education, Livelihood and Disability sector interventions. The organisation undertakes direct implementation of projects on the ground in addition to providing funding support to not-for-profit organizations in India through its donor – RIST, USA. The Organisation's Strategic planning focuses on key areas of its work with the aim of addressing the key issues of poverty alleviation, economic inequalities, and 360° impact on the quality of life through social development programs. The organisation's programs are majorly implemented in the most rural and under-developed areas in the country. Over the years, The organisation has expanded its charitable activities in collaboration with State and Central Governments, institutions, corporates, academia and non-government organizations for sustainable interventions to achieve scale and economy. The interventions implemented by the foundation range from grass root level to national level programs.

PROJECT

The Organisation has been operating more than 25 HRCC centers on self-Implementation mode since Jan 2022. MMU intervention is an innovative model of healthcare delivery that could help alleviate health disparities in vulnerable populations and individuals with chronic Renal diseases.
